CLARA PHILLIPS IN SALVADOR IS REPORT MONDAY

Hammer Murderess Located and Will be Arrested Soon Says Los Angeles Examiner

OFFICIAL VERIFICATION OF CAPTURE LACKING SAY POLICE

Missing Woman Several Times Reported to be in Mexico

LOS ANGELES, Calif.—Mrs. Clara Phillips, charged with the murder of John Edgar Hoover, is reported to have been located in Salvador, El Salvador, according to the Los Angeles Examiner Monday. Her capture is reportedly imminent.

Mrs. Phillips escaped by leaving the home of her husband, who was reported to have been in the city of Los Angeles, after Mrs. Phillips had been reported to have been in the city of Los Angeles.

Mrs. Phillips was reported to have been in the city of Los Angeles, after Mrs. Phillips had been reported to have been in the city of Los Angeles.

CHURCH VICTIMS OF SOVIET

Archbishop Zerkov, Metropolitan of Petrograd, whose death sentence was commuted to ten years imprisonment, following a protest from many nations.

Monsignor Budkewicz, vicar-general of Petrograd, who was shot to death by order of a Soviet court in the campaign to drive all organized religion from Russia.

BONAR LAW FRIENDS RESENT REPORT THAT PREMIER WILL QUIT

Announcement of Sunday is Scored as "Conspiracy to Weaken the Ministry"

RETIREMENT NOT DEMANDED BY HEALTH CLAIMS MORNING POST

"Plot" Ascribed to Birkenhead and Other Opponents

LONDON.—By The Associated Press.

The staunch supporters of Prime Minister Bonar Law, among the morning newspapers, are indignant at what they call the "conspiracy" to weaken the ministry.

The Morning Post, the leading conservative paper, asserts with the greatest emphasis that there is nothing in the condition of Mr. Bonar Law's health to cause his retirement.

The Post and the other papers which share its views attribute the "conspiracy" to Lord Birkenhead and other conservative opponents who are opposed to his participation in the government.

They also impute to Lord Birkenhead and his supporters the desire to see the resignation of the minister.

Elsewhere there is equally a firm support for Bonar Law's position, one of the leading morning papers, the Morning Post, says:

"It may be true that Mr. Bonar Law has no intention of resigning, but it is equally true that he has no intention of resigning."

Most noteworthy among the newspapers confirming Sunday's reports is the Daily Telegraph, which says:

"The prospect of a reduction of a penny a pint in the price of beer, which would have been a great boon to the public, has been abandoned."

All the publishers and sub-publishers said that if the expected announcement of the reduction in the beer tax was forthcoming in connection with the presentation of the budget in the house of commons, they would start selling at a reduction of a penny a pint.

The newspaper political experts were virtually agreed that a reduction in the income and beer taxes will be made, but beyond these there was a wide difference of opinion.

It was generally expected that the laborers would fight the budget to the bitter end, if it did not lift existing indirect taxation on such articles as tea and sugar.

FORMER CROWN PRINCE OF GERMANY DECLARED INSANE

LONDON.—Former Crown Prince Frederick of Germany is suffering from a progressive mental disorder, according to two noted alienists of Berlin.

JAPS DIE IN SCHOOL FIRE

SAN FRANCISCO, Calif.—Two Japanese children perished in a fire that broke out in a Japanese school here early Monday.

TEXAS GIRL WINNER IN LONG DISTANCE DANCING CONTEST

Beauty Contest Winner Takes Another Title by Dancing 65 Hours and 30 Minutes

CHICAGO AND SUPERIOR ALSO TO STAGE DANCING CONTESTS

Medical Examinations to be Required of Contestants

HOUSTON, Tex.—Sixty-five hours and thirty minutes.

That is the answer of a Texas girl to the world-wide champion long distance dancers of New York, Cleveland, and Baltimore.

The record was made at McMillan's dancing academy here, twenty-one couples having set out at 1:15 p. m. Thursday, with a cash prize and a trip to New York, as the goal for the best record.

Pretty Miss Magdalene Williams, winner in a recent Valentino beauty contest, danced steadily through two days and three nights and greater part of the third day, while couple after couple dropped out, in spite of chagrined looks around their heads.

Her "Swan Song" Is Lively

To the very last there was very little evidence of exhaustion about Miss Williams, and for a swan song she staged a lively one-step as she did on the first night.

Three Houston dancers broke the world record, established at Baltimore Saturday, when they continued dancing beyond 2:30 a. m. Sunday.

Doctors prevailed on Miss Williams to drop out shortly after 3 a. m. and leave the contest to Miss Williams and L. Kessler. At 2:27 p. m. Kessler was ruled off the floor as a result of his apparent inability to keep time to the music or to do any real dancing.

Miss Williams announced she would go on through to 9 p. m. making a seventy-two hour record. Doctors felt her pulse and offered no serious objections, and the dance continued, despite protests of the hall management.

Fights Dissuading Friends

The young lady's friends had a scrap with all who advised her to stop, and she had plenty of energy left, but a note from the parents prevailed and she consented to leave the floor at 8:08 p. m. after having been continually on it for more than sixty-five hours.

A waiting limousine carried her to a Turkish bath and then to her home and sleep.

Chicago Will Show 'em

CHICAGO, Ill.—Chicago undoubtedly will be the unqualified reception accorded haphazard endurance dancing contests all over the country, is to stage one of its own but not of the haphazard kind. The contest, which takes place at the Truist on April 24, will be held under the direction of the combined Chicago National and International Dancing Masters' associations, who have drawn up a set of rules designed to remove any fear of physical harm being incurred by the dancers.

Incidentally, it will be the first strictly controlled and regulated affair of its kind in the United States, if not in the whole world. The competition is open to all who can pass the physical examination.

Other examinations will follow at intervals of three hours, every competitor being compelled to take twelve minutes' rest at the end of each three hour period. The examinations will be conducted by well known Chicago doctors, Herman Rudensen, health commissioner, said his department would not interfere with the tournament.

Mayor Orders Examination

SUPERIOR, Wis.—On instructions from the mayor, the chief of police here Monday ordered that prospective contestants in a nonstop endurance dance contest scheduled to be held in Superior starting Friday must produce doctor's certificates showing them to be physically fit before being allowed to enter.

LORD CECIL TO DISCUSS LEAGUE AT CHICAGO MEET

CHICAGO, Ill.—Lord Robert Cecil, British proponent of the league of nations, will address the Chicago council on foreign relations here Monday afternoon. Lord Robert has chosen for his Chicago address "the league of nations and international cooperation." The speech will be broadcast by a wireless station.

PRIEST SLAYER PLEADS GUILTY GETS LIFE TERM

KALAMAZOO, Mich.—Rev. Father Charles Dillon, confessed slayer of his superior, Rev. Father Henry O'Neill of St. Augustine's Catholic church, last Thursday, was sentenced to life imprisonment at hard labor by Judge Weimer in circuit court Monday forenoon. Rev. Dillon entered a plea of guilty.

LAKE SAILORS LOOK FOR WARM RAINS TO BREAK UP ICEFIELDS

DULUTH, Minn.—With the date of the expected opening of navigation past, head of the lake fishermen are hoping for a break in the weather and warm rains to clear the ice fields that have lake Superior securely locked up to date.

GRAIN FUTURES TRADING ACT IS DECLARED VALID

Objections on Which Former Law Had Been Held Unconstitutional Removed in Present Statute

BASED ON RATE BODY'S RIGHT TO CONTROL INTERSTATE TRADE

Opinion Read by Justice Taft; McKennolds and Sutherland Dissenting

WASHINGTON.—The grain futures trading act was declared valid and constitutional Monday by the supreme court.

It was the second time the court had passed on the validity of a grain futures trading law, a previous statute based on the taxing power of the federal government having been held unconstitutional. The law upheld Monday was based on the right to control interstate commerce.

Chief Justice Taft, in delivering the opinion said the decision in the former grain futures case was an argument in favor of the constitutionality of the present law because in the latter congress met the objections which the court had pointed out as having rendered it invalid.

It is impossible the court said, to distinguish between transactions in cash grain and in grain in transit from stock shipments, which the court had held to be interstate commerce. The grain exchange, the court said, was merely the gateway through which the grain flowed in its course from the west to the east and to Europe.

Sales on the Chicago Board of Trade are as necessary to the continuity of this flow of grain, the court held, as are stockyard sales in the movement of cattle. It was added that the evidence showed that future trading does have an effect on the cash price of grain.

The fact that corn in grain have been brought about by dealings in futures evidenced, the decision said, the relations between future dealings and cash grain.

The Chicago Board of Trade, the court concluded, is engaged in business which makes it subject to national regulation.

Justices McKennolds and Sutherland dissented.

Board Bows to Law

CHICAGO, Ill.—"I am advised by the Associated Press that the constitutionality of the grain futures act has been upheld by the supreme court of the United States," said President John J. Stream, of the Chicago Board of Trade.

Less to say that the Chicago Board of Trade will obey the law which has been approved by the highest tribunal in the land. We will cheerfully conform in every particular to the law.

"What effect some of its provisions will have on the orderly marketing of food commodities the future alone can disclose. If the law fails to be the panacea for agricultural ills it will be through its own deficiencies and not from hindrance of the grain exchange."

Chief among the new comers who will be closely watched by officials, players and fans, will be Willie Kamm, the \$100,000 prize of the Chicago Americans, and Jimmie O'Connell of the New York Nationals. The price tags on these men—O'Connell is commonly referred to as the \$75,000 beauty of the Giants—alone would command attention but their performance on the field thus far have indicated that they should range themselves in the ranks of the leaders of the (damned). Both come from San Francisco.

George Siler, leading batsman of the world, will be missing from the initial crack for the St. Louis Americans at the start of the season as will Charles Hollocher, star shortstop of the Chicago Nationals. Siler has eye trouble which may necessitate an operation, and Hollocher is recovering from an attack of influenza, but both are expected to return to the game later in the season.

Predict Good Season

John Heydler, president of the National League, Ban Johnson, president of the American League, and Kenesaw M. Landis, commissioner of baseball, all have predicted a great season for the major leagues.

The New York Yankees and the Chicago Cubs will dedicate virtually new stadiums in their respective opening games. Detroit also has a remodeled park, and Louisville in the American Association has a new plant.

RUTHENBERG TO TRIAL IN MICHIGAN COURT ON RADICAL CHARGE

ST. JOSEPH, Mich.—By The Associated Press.—Charles E. Ruthenberg of Cleveland, Ohio, nationally known liberal, the second person to face prosecution under Michigan's anti-syndicalism law, was ordered to trial Monday, a little less than two weeks after a jury failed to convict him.

W. Z. Foster of Chicago, the first defendant tried under the law, Ruthenberg, as was Foster, is charged with assembling with an organization advocating illegal methods for bringing about social and political reform.

GRAIN EXPORT DROPS

WASHINGTON, D. C.—Grain exports from the United States last week amounted to 3,145,000 bushels, compared with 4,144,000 the week before.

SPRING RUSH ON FOR TICKETS TO BASEBALL GAMES

National League Opens Season Tuesday With Other Leagues Following Closely After

FEW OF LAST YEAR'S STARS MISSING FROM THE LINE-UP

Christy Mathewson and Frank Chance Back in the Game

CHICAGO, Ill.—The annual spring rush to the baseball parks, an occasion somewhat similar to "moving day" in the big cities, will be on Tuesday at the opening of the National league. Business of hard playing and pennant raising will be in order. The weather man was being looked to for his dictum.

Preliminary ticket sales where the covered pasteballs already have been offered for the tantalizing of the fans, are reported strong and indicative of great interest in the opening games, reports to the office of R. R. Johnson, president of the American league, indicate a very satisfactory demand for tickets.

While the National league opens Tuesday the American league will start the season on Wednesday. The American association will open on Thursday. The schedules for the opening are as follows:

Where They Open

National league—New York at Boston; Philadelphia at Brooklyn; St. Louis at Cincinnati; Pittsburgh at Cleveland.

American league—Boston at New York; Washington at Philadelphia; Detroit at St. Louis; Chicago at Cleveland.

American association—Columbus at Toledo; Louisville at Indianapolis; Minneapolis at Milwaukee; St. Paul at Kansas City.

The national pastime returns to the spotlight with few of its principal stars missing from the baseball firmament and some of its most scintillating performers of past days back in the orbit of the spheres.

Stars Return to Game

Christy Mathewson and Frank Chance. They are names that once set the fans aflutter and they are back in the national sport again in the same city. Mathewson, the head of the Boston Nationals, and Chance, manager of the Boston Americans, Mathewson, once the wizard of the New York Giants' pitching staff whose twirling by many was credited with the larger share of winning league and world's champions, and Chance, once the "peerless leader" of the champion Chicago Cubs, are expected to bring added glory and interest to the 1923 races.

In addition to the regular stars, many new faces will be seen in this year's line-ups.

Kamm Leads New Comers

Chief among the new comers who will be closely watched by officials, players and fans, will be Willie Kamm, the \$100,000 prize of the Chicago Americans, and Jimmie O'Connell of the New York Nationals. The price tags on these men—O'Connell is commonly referred to as the \$75,000 beauty of the Giants—alone would command attention but their performance on the field thus far have indicated that they should range themselves in the ranks of the leaders of the (damned). Both come from San Francisco.

George Siler, leading batsman of the world, will be missing from the initial crack for the St. Louis Americans at the start of the season as will Charles Hollocher, star shortstop of the Chicago Nationals. Siler has eye trouble which may necessitate an operation, and Hollocher is recovering from an attack of influenza, but both are expected to return to the game later in the season.

Predict Good Season

John Heydler, president of the National League, Ban Johnson, president of the American League, and Kenesaw M. Landis, commissioner of baseball, all have predicted a great season for the major leagues.

The New York Yankees and the Chicago Cubs will dedicate virtually new stadiums in their respective opening games. Detroit also has a remodeled park, and Louisville in the American Association has a new plant.

W. Z. Foster of Chicago, the first defendant tried under the law, Ruthenberg, as was Foster, is charged with assembling with an organization advocating illegal methods for bringing about social and political reform.

GRAIN EXPORT DROPS

WASHINGTON, D. C.—Grain exports from the United States last week amounted to 3,145,000 bushels, compared with 4,144,000 the week before.

GERMANY ABLE TO PAY CLAIM OF POINCARE

Declares Three Months in Ruhr Has Shown that Germany Can Meet Coal Deliveries

TO WITHDRAW ONLY AS GERMANY MEETS REPARATIONS OBLIGATIONS

Spending of Money Abroad Shows Germany Has Means, Says Premier

PARIS.—By The Associated Press.

Reaffirming France's intention to withdraw from the newly occupied territory only as Germany makes her reparation payments, Premier Poincare, in his Dunkirk speech Sunday, asserted that three months in the Ruhr had convinced France of Germany's ability to meet her coal deliveries.

"The address, delivered at the dedication of a monument to Dunkirk's fifteen hundred war dead, contained a vigorous renewal of France's determination to 'carry on to win the peace' as she had bent every effort to win the war."

Three months in the Ruhr, the premier said, had convinced France that Germany could have made the coal deliveries required of her, for it was evident that the reich was able to get along without the Ruhr coal.

"We have proof that she could have paid us in foreign exchange," he added, "as she now spends large sums abroad."

Cue to Berlin?

BERLIN.—By The Associated Press.—Premier Poincare's remarks at Dunkirk were intended primarily for English consumption, the Berlin newspapers think, yet they cannot understand why such a new statement was regarded as necessary in view of the fact that Louis Loucheur was reported to have found British sentiment on the Ruhr question swinging toward France.

However, the French premier's speech was intended to furnish a cue for the German government and the reichstag in this week's debate on the foreign policy, says the Lokal-Anzeiger. "Then the reply which is to be immediately given will spell a new disappointment for him."

The newspaper adds that Germany is determined and is in a condition to continue her passive resistance campaign for a long time to come if necessary.

Germany Favors Hughes Plan

BERLIN.—By The Associated Press.—Forecasts of Foreign Minister von Rosenberg's address before the reichstag Monday indicated that he would express Germany's opposition to any suggestion of a solution of the reparation problem which would violate in any way the territorial integrity of the reich.

Germany is represented at the foreign office as still convinced that the proposal of Secretary Hughes for an expert commission to review her economic condition, constitutes the most feasible solution of her international problem that has yet been advanced.

Take Nine More Mines

DUESSELDORF.—By The Associated Press.—Nine additional coal mines in the Ruhr have been seized by the French and Belgians. It was announced Monday, making a total of thirty-one mines and coke plants now in the hands of the forces of occupation.

There are approximately 260 coal shafts in all the Ruhr.

At the last nine mines seized there were about 160,000 tons of fuel, chiefly coke. All this was confiscated.

The French and Belgians, it is announced, will begin shipping today an average of 1,600 tons of coal and coke daily to France and Belgium. The German mine owners estimate that the shipments will be only between 4,000 and 5,000 tons.

Three French cabinet members arrived in the Ruhr today—Maugin, Lefevre and Delaunay, respectively the ministers of war, public works, and finance. After spending today and tomorrow in the Ruhr studying the general situation, but particularly the economic aspect, they will go to the Rhineland for several days' inspection.

PALMER'S TRIAL IS ADJOURNED A WEEK; DRY AGENTS BUSY

The examination of Harry Palmer, proprietor of "The Alderman's Store" on Lower Main street, on charges of illegal possession of a beverage containing more than a half of one percent of alcohol, which was to have been held in county court Monday morning has been adjourned until April 23, at 10 a. m. District Attorney Gordon and F. E. Withrow, Palmer's attorney, agreed to the adjournment when Mr. Gordon announced that the prohibition agents could not be present to testify. The agents found a quantity of wine on a porch in the rear of the store premises owned by Mr. Palmer. Mr. Palmer denies owing the wine.

EX-CONGRESSWOMAN TO HAVE PLACE ON VETERANS' BUREAU

WASHINGTON.—An executive order appointing the appointment of Mrs. Alice Robertson, former representative from Oklahoma, as a vice worker in the Veterans' Bureau, was signed Monday by President Harding.

WEATHER REPORT

WILL PROPOSE NEW BEER RESOLUTION IN THE ASSEMBLY

Superior Member Urges Action in Lower House Asking Dry Law Modification

URGES MEMORIAL TO CONGRESS INDEPENDENT OF UPPER HOUSE

Dissatisfied With Senate Refusal to Pass Wet Resolution

MADISON, Wis.—By The Associated Press.—Modification of the Volstead act to legalize the manufacture and sale of salubrious, one hundred percent beer, will be asked of congress in a resolution to be introduced into the assembly this week, Senator Lindahl, superior, one of the wet leaders, announced.

In making this announcement, Assemblyman Lindahl said that he was disappointed with the failure of the attempt to get a resolution through the senate, asking congress for a less stringent liquor law. He expects that the lower house will adopt his resolution by an overwhelming vote and send it to congress without any action by the senate, which recently showed itself to be dry. The Wisconsin resolution providing for a more liberal interpretation of the Volstead act was killed by the upper house by one vote. "A resolution passed by the assembly should have as much weight with congress as a resolution passed by both houses," Mr. Lindahl declared. "The assembly is nearer to the people and is a more representative body than the senate. It is not right that the senate should stifle the voice of the people as expressed by the assembly."

The wet and dry fight will break again in the senate this week when six bills providing for change in the search and seizure section of the Volstead law or its repeal are on the calendar. Senator Merrill E. White, one of the wet leaders, said that he expected all of the measures to be defeated in view of the stand taken by the upper house on the Volstead resolution regarded as the nucleus of the wet movement. In his opinion, the opponents of prohibition can expect nothing from the present legislature due to a large majority of drys in the upper house.

The assembly this week will again consider the Volstead bill, restoring the search and seizure clause of the Volstead law. Passage of this measure is expected in the lower house, having been engrossed by a 2 to 1 vote.

BLANCHE HERSELF DISCOVERED TALENT OF HER PARTNER

Blanche Ring, co-star with Charles Winninger in the new musical comedy, "A Yon Wench," which opens at the La Crosse theater on Sunday matinee and night, April 22, is partly responsible for a scattering Mr. Winninger, who up to the time Miss Ring landed him in a small town in Wisconsin, was a member of a family group who were living in their own stock company. There were five boys and the stock company was originally founded by the father. It was a family stock company but a capable and money-making one. The stock company has always been an excellent one for actors and Charles Winninger's four sisters, who belong to the family, are famous. Thanks to Miss Ring, who is Mrs. Winninger off stage.

At the time Mr. Winninger was dug out of obscurity by Miss Ring she was starring in Chicago in a musical play. Her principal comedian broke a leg. Some one suggested that she ask the Winninger stock company to loan her a comedian. In Wausau, Wisconsin, the Winninger family were located by means of the long distance telephone and Miss Ring asked to be allowed to talk to Mr. Winninger. "Which one?" asked the voice at the other end of the line. "There are five of us." "I want the best actor in the bunch," she said to Miss Ring. "You are talking to him," said the voice.

Mr. Winninger got to Chicago the next morning. He went on at the matinee and bluffed through his part. By the night performance he was better prepared, had all the old comedian's business and added some new business of his own.

The brain of Gambetta, the great French statesman, only weighed about 46 ounces while that of an Indian Indian squaw weighed 70 ounces.

FOR SKIN TORTURES

Zemo, the Clean, Antiseptic Liquid. Just What You Need

Don't worry about Eczema or other skin troubles. You can have a clear, healthy skin by using Zemo obtained at any drug store for 35c, or extra large bottle at \$1.00. Zemo generally removes Pimples, Blackheads, Blisters, Eczema and Ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid. It is easily applied and costs a mere trifle for each application. It is always dependable.

Large assortment of SLIP-OVER and TUXEDO SWEATERS Priced from \$1.98 to \$19.95. AT SPURGEON'S

LAYS TAX BOOST TO HIGHER PRICE LEVELS AND INCREASE IN GOVERNMENTAL ACTIVITY

MADISON, Wis.—The increase of taxes in Wisconsin can be explained by "the great advance in the price level," and by the extension of activity in highway building and education, Thomas P. Lyons, chairman of the tax commission, advises the legislature in a summary of the state tax system. His survey shows that in the four years from 1918 to 1922 taxes increased 91.5 per cent from a total of \$64,488,981 to \$117,921,738.

"This increase of 91.5 per cent from 1918 to 1922 sharply challenges attention and requires explanation," Mr. Lyons said, adding that "this explanation is found in the great advance in the price level and in the great extension in certain lines of governmental activity."

The commissioner points out that according to a highway commission report highway improvements cost \$20,081,111 in 1918, increasing to \$51,911,930 in 1922 or 172 per cent. Similar statistics of expenditures for education prepared by the state board of education show an increase in the cost of schools from \$28,250,236 in 1916 to \$50,385,853 in 1920-21.

"While all departments of government have enlarged their activities and materially increased their cost during the period in question these two items of schools and highways absorb the greatest proportion of the increased cost," Mr. Lyons said. "It should be borne in mind that these figures relating to schools and highways refer to aggregate expenditures and not to tax levies."

"It would be erroneous to charge this rapid increase of taxes to the tax system. All communities must bear the cost of their own government, state and local and the tax system is merely a means adopted to raise the necessary amount. To the extent that part of the needed revenue is raised by one form of taxation other forms are correspondingly relieved."

A table was shown pointing out that the state retained and used 18.5 per cent of the tax levy in 1921, 19.5 per cent in 1918 and 11.3 per cent in 1922. The remainder went to local units for their use.

WOMEN'S SOCIETY ONALASKA CHURCH TO BE ENTERTAINED

Committee Named to Act as Hostesses for Ladies' Aid of the Methodist Church

The Ladies' Aid society of the M. E. church of Onalaska, will be entertained in the church parlor, Thursday afternoon, April 19th, by the following committee: Mesdames W. T. Walker, L. J. Bond, Robert French, Sr. and A. J. Thomas.

Miss Lester, daughter of the pastor, is in Onalaska visiting relatives and friends. W. L. Reng, returned from Milwaukee Monday morning where he attended the farmers' convention.

Edwin Berg returned to his home at Beloit, Iowa, after visiting his parents a few days.

Charles, the son of Aradia spent part of the week with friends here.

A. E. Rehnold of Tomah visited at the home of H. M. Cronk Wednesday. Mrs. Nathan Wallen of Taylor is visiting at the home of her parents, Mr. and Mrs. B. S. Shaw.

Mrs. J. J. Melby of Whitehall has returned to her home after a visit with her daughter, Mrs. Harold Rydberg.

C. L. Schaefer has moved his family to La Crosse the past week.

Mrs. R. L. Moore has returned home from a visit of two weeks with her mother in Aurora.

M. Allen went to Minneapolis Wednesday for a few days to visit relatives and friends.

Mrs. Wendell Moore entertained the members of the Covered Dish club Friday afternoon.

Mrs. W. J. Showers returned to her home here this week after spending a couple weeks at the home of her son, W. L. R. Showers, of Appleton.

Mr. and Mrs. Howard Cronk were Sunday visitors at West Salem.

A number of social entertainments have been given the past week for Mrs. Joseph Putaska, who is a recent bride and who was formerly Miss Alice Christopher.

Harry Thompson of Madison has returned here after a visit with his brother, Alex. Thompson and family.

Miss Doris Osgood is at a hospital in La Crosse where she submitted to an operation for appendicitis last week.

GERMANS USE ALUMINUM IN BUILDING STAGE SCENERY

CHEMNITZ, Saxony, (A. P.)—Aluminum is now being used here for stage scenery, instead of wood. Hanna Ederhard, managing director of the Chemnitz open house, introduced the innovation largely because wood has become so expensive in Germany.

REV. TUTTLE RALLIES

ST. LOUIS, Mo.—The right Rev. Daniel S. Tuttle, presiding bishop of the Episcopal church of the United States, whose condition became critical Saturday, was said by physicians at night to have rallied from his sinking spell and was resting easier. The aged prelate, who has been ill with grippe since February 28, was said to be considerably weaker tonight, however.

THE QUICKEST OATS KNOWN

There is now a Quick Quaker Oats—the quickest cooking oats in the world. It cooks in 3 to 5 minutes as well as an hour would cook it.

The same super-flavor that made Quaker Oats world-famous. Flaked from the finest grains only. But the oats in this style are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

Your grocer has both styles—Quick Quaker and regular. And both have that matchless flavor.

Now, a Quick Quaker Oats Cooks in 3 to 5 minutes

MORE SCHOOLING FOR WORKING CHILDREN IS URGED BY HAMBRECHT

Proposes One Day a Week Attendance for Children Between Ages of 14 and 18

MADISON, Wis.—By The Associated Press.—The extension of part-time educational opportunity to working children between the ages of 14 to 18 "will do more to raise the economic tone of the rising generation than any other single movement in America," George P. Hambrecht, director of vocational education said in a statement Monday.

Mr. Hambrecht said that he hoped to see the day when every working boy and girl in America must, as a condition precedent to securing a job, attend a properly conducted, instructional, part time school one day each week between the ages of 14 and 18 unless such child shall have finished the equivalent of a high school course.

The work in Wisconsin under the state compulsory education law which aims to bring educational contact to the working boy and girl is permitted to be fully established and conducted with Mr. Hambrecht said, become an incentive for a national movement as an adjunct to child labor.

"The state permits child labor between the ages of 14 and 18 years, with varying local safeguards for the working child's health and safety," the statement pointed out. "All of these safeguards are of prime importance, though negative in character. These safeguards prescribe, in so far as possible, the physical well being of the working child while employed, as well as insuring reasonable hours of labor and a living wage, and laws enacted for this purpose are generally administered."

"The state owes a further affirmative duty toward the employed child, who will become the matured citizen of tomorrow, by providing a wholesome influence and training through a properly organized part-time school system, a learn-while-you-earn program during these plastic and impressionable years of childhood. There should be a part-time school where these working boys and girls shall attend one day each week to receive the stimulus and incentive from trained teachers to prepare them for their best efforts when they become self-supporting citizens."

"This is primarily a state function as to policy a local function in the application of the state policy for its working children. Child labor without child opportunity is unjust, and no state should permit it."

REPORT "REDS" VAINLY SEEK TO RULE MINERS

WASHINGTON, D. C.—An "outfit of parlor reds" is making a "desperate but vain effort" to control and

elate the policies of the United Mine Workers of America, a statement from that union declared. They are the same "crowd of reds and radicals listed in the caprice by Stamped Gnomes of reds, communists and bolsheviks who control the Charles Garland fund of \$500,000," the statement said.

Nathan Rehrin, a state supreme court stenographer of New York, wrote 700 words on the typewriter in two minutes with only three errors.

PLAN NEW RAILROAD

ST. PAUL, Minn.—A contract has been let for immediate construction of a railway extension running from the main line near Forsyth thirty-four miles south into the semi-barren coal fields of the Rosebud district of Montana. It was officially announced by the Northern Pacific Railway company here Saturday.

It is expected the line will be ready for use this fall when the Northern Pacific will start strip coal mining in that district. An expenditure of more than \$2,000,000 is involved in the combined enterprise.

DATE OF DOCTORS' MEETING CHANGED TO OCTOBER 3-5

MILWAUKEE, Wis.—Upwards of five hundred physicians and surgeons of Wisconsin will meet here for the annual convention of the State Medical society, October third to fifth, inclusive. Announcement of the convention date was made here Monday by J. G. Crowhart, secretary of the organization, the September date being cancelled for the reason that it conflicted with meeting of the American Mining congress.

The three day convention will include in its program prominent physicians and surgeons from all parts of the country. A feature of the meeting will be a large clinic at which time demonstrations of the latest discoveries and methods will be made.

ONE LONG SMILE FROM NEW YORK TO SALT LAKE CITY

TAKE all the smiles that Oh Henry! starts every week and place them side by side, and you'll have one long smile that runs all the way from New York to Salt Lake City. Enough people stop, drop a time and say, "Give me Oh Henry!" from Monday to Saturday of EVERY week to make a line that long and ALL smiling!

No other candy at the price has ever been so widely liked and eaten. And there is but one reason: The Taste! Imagine a rich Butter Cream dipped in soft Caramel, rolled in crisp Nuts and Coated with Milk Chocolate. That's Oh Henry! You'll find him everywhere you go!

NORMANNA CONCERT SUNDAY EVENING IS DELIGHTFUL EVENT

Feature Numbers and Soloists
Please Audience Gath-
ered for Musical

By H. MARGARET JOSTEN
As the Normanina Sanger sang "Norway, my Norway" by Alfred Paulsen last night Mr. Blasted taking the solo, it seemed to many in the audience one of the most pleasing numbers Normanina has ever presented. It was very artistically done, the humming having the effect of a choir of strings. This number stood out conspicuously as one of the two most successful numbers in which the chorus participated. "Den store Nido Flek" by Grieg in which Mr. E. O. Forseth took the solo being the other.

Normanna was not at its best at this Sunday evening concert. There was a tendency to get off pitch and for two voices to force themselves into undue prominence which may have been very trying to a director of Mr. Forseth's caliber. Normanina maintains a high standard of excellence which of course makes any variation from it more conspicuous than it would seem in a lesser organization.

The Sanger was very fortunate in its choice of soloists. Mrs. Harry Warkins sang "Aspiration" by Cox, the rich seriousness of her voice pouring out the message of the song in a deeply inspiring way. "Olive is kind" by Bartlett she sang with a violin obligato by Mrs. Kio-the, voice, violin and organ weaving together a beautiful mesh of melody.

Mr. Blasted's voice, always beautiful in quality, seemed this time to be better of again, a loud ground of the chorus than with the organ. The writer has not heard Mr. Blasted for some time and was much interested to observe how much he has learned recently concerning the proper handling of his voice as well as of composition and phrasing. The clear, convincing phrases of "I know that my Redeemer liveth" were exquisite.

The hour and a half was profitably spent as it always is at Normanina concerts.

CHICAGO SIGN PAINTERS OBTAIN FIVE-DAY WEEK

CHICAGO, Ill. Sign painters of Chicago have signed a five-day week agreement with their employers, making Saturday a holiday. It became known today. The sign painters' union is a member of the Chicago Federation of Labor.

CLAIMS WOLF KILLING TITLE

BISMARCK, N. D. The world's record as a wolf and coyote hunter is claimed by Adam Leonski of Hurley, Pieper county, who in the last 25 years has slain nearly 1,000 of these animals in North and South Dakota.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.

Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation.

It has all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your fingertips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness.

25c and 65c, in jars and tubes. Better than a mustard plaster.

PLEASING PROGRAM OF VAUDEVILLE ON AT RIVOLI THEATER

The six act vaudeville bill was given a good reception at the Rivoli theater Sunday, at its first showings. All of the acts seemed to please the large audiences.

Bert and Hazel Skatelle opened with a novelty dancing exhibition, doing most of the steps on roller skates. Their offering would be considered up to the average without the skates—on skates it is remarkable. In addition to the fancy skating, Mr. Skatelle offers a bit of amusing comedy.

Ward and King, comedians, continue to get anywhere with their skill, "sing My tale" but their act is put over in a novel way that delights the audience. "Navigators of Nonsense" is what Lawrence and Herman call themselves, and they keep the audience convulsed with laughter for the fifteen minutes that they occupy the stage. Their offering is a combination of German and straight comedy.

Frank Rose and Olive Thorn present a novelty in the comedy skit, "Sold," written by Walter De Leon. A young Swedish heiress, who has just received her legacy and a persistent young auto salesman are the parts played. The Skatelle Girls, in a depiction of two young girls of the curl and romper age, present a singing and personality offering that is out of the ordinary, and the Tuscano Brothers entertain with a hazardous and hair-raising performance juggling and tossing about heavy Roman battle axes.

Some of the most extensive coal fields of South Africa are located within 240 miles of Durban.

POSTAGE-DODGING IS NEW SPORT IN GERMAN REPUBLIC

Berlin Municipal Administration
First Victim Jumped on by
Postal Authorities

BERLIN.—Dodging the payment of postage is becoming one of the great pastimes in Germany, and the federal postal authorities are hot on the trails of business firms and others who have inaugurated their own special mail delivery services. The first victim pounced upon by the postoffice department was Lord Mayor Boess of Berlin.

It was found that Berlin's municipal administration had organized its own corps of letter carriers in order to do away with the buying of postage stamps. Informal complaints that this violated the postal regulations failed to move the city officials, and the case was taken to court.

With the lord mayor on one side and the postmaster general on the other this fight has resolved itself into a battle much the same as the contests in the old days between the feudal barons and the heads of minor states. Two of the city's leading councillors, as well as Lord Mayor Boess, were summoned to answer for the alleged breach of regulations, but the highest local court decided against the postal department. Now there is talk of bringing the case before a federal judge on the grounds that constitutional rights are involved.

Pending further action against the

Berlin officials, the postmaster general is directing his attention to a large number of commercial establishments which are suspected of carrying out the same practices. It is declared the government is losing billions of marks annually through evasion of stamp windows by various concerns.

LANSING-ISHII PACT BETWEEN JAPAN AND U. S. IS CANCELLED

WASHINGTON.—Cancellation of the Lansing-Ishii agreement between the United States and Japan was formally announced by the state department Sunday in a statement making public an exchange of notes between Secretary Hughes and Masumaro Hanihara, the Japanese ambassador.

The exchange of notes set forth that in the "light of the understanding arrived at by the Washington conference on the limitation of armaments the American and Japanese governments are agreed to consider the Lansing-Ishii correspondence of November 2, 1917, as cancelled and of no further force or effect."

The negotiations were conducted personally by Secretary Hughes and Japanese embassy officials in Washington.

YOUTH IS KILLED IN UNDERWORLD FUED

ST. LOUIS, Mo. —A fresh outbreak of gangster violence resulted in the killing of William J. Taylor, 19 years old, today by police in an underworld character. Taylor, member of the "Cactus" gang, was shot by companions in an automobile and thrown out along a country road.

**OSTEOPATHS DENIED
NARCOTIC PERMITS**
MADISON, Wis.—Osteopaths here are not entitled to a permit under the Harrison law to dispense narcotics, Assistant Attorney General J. E. Messerschmidt held an opinion to J. M. Dodd, Ashland, secretary of the state board of medical examiners. Osteopaths who are licensed to practice

both osteopathy and surgery, however, may be issued permits, the opinion said.

Editorial

VILAS J. BOYLE, Editor.

"When tillage begins, other arts follow. The farmers, therefore, are the founders of human civilization."—Daniel Webster.

BUSY DAYS AHEAD

It looks a little bit as though the weather man intended to relent and give us some real spring weather. Of course it snowed a bit last Saturday night, but on the whole, the weather conditions for the past week or so have pointed to a general breaking of the grip of Old Man Winter.

With the coming of spring comes the busiest season of the year for the farmer. There will be the long, quiet days of winter, when there was time to do but care for the stock, do the chores and perform other little odd jobs. In a few days, and many have already started, the regular season of activities will be in full swing, and the farmer, with all of his help, will be toiling again from dawn until dusk.

There are very few occupations which demand so much in personal care and attention from a man as farming, and very few which have so many possibilities for grief and disappointment. But on the other hand, there are just as few that can give to a man such real happiness and joy in the night of work well done.

Busy days are ahead for the farmer. Now is the time to get ready for them.

T. B. ERADICATION

MENTION has been made before in this column concerning the eradication of bovine tuberculosis, and part of this may be repetition. However, it is impossible to say too much on the subject. Tuberculosis, human and bovine, is one of the greatest social and financial problems which confronts the nation today. Its social side is perhaps more apparent to the city dwellers, especially those who live in the large cities where the living conditions are more congested, than it is to the farmers, but the economic side is felt by all.

The first direct financial loss because of T. B. is felt by the farmer in the loss of his stock. Packing houses report high percentages of tuberculosis in cattle and swine delivered for slaughter, and these animals are practically a total loss. The loss of a few head of cattle, or a few hogs, is not a heavy loss to the farmer, but the loss of a large number of head of cattle, or a large number of hogs, is a heavy loss. The loss of a large number of head of cattle, or a large number of hogs, is a heavy loss. The loss of a large number of head of cattle, or a large number of hogs, is a heavy loss.

In those county farmers have at least a small fund for the area. A test which cannot be given until funds are provided by the state to pay a part of the loss which the farmer will have to bear through the slaughter of infected cattle. It may not be long, but hopeful signs appear on the horizon and Governor Blaine is interested in the eradication program, but can you afford to wait? Better to have your herd tested now and lose one or two animals without being recompensed at all, than to wait a while and lose the whole herd and receive only a fraction of the value of the animals.

Bounty on Eggs of Jack Rabbits in Kansas State

If you find any jack rabbit eggs on your property, report them to the Kansas Game and Fish Commission. They mean to exterminate the jack rabbit, and the eggs of the jack rabbit are the first step in this plan. The Kansas Game and Fish Commission is offering a bounty on the eggs of the jack rabbit, and the bounty is \$100 per hundred eggs. The bounty is \$100 per hundred eggs. The bounty is \$100 per hundred eggs. The bounty is \$100 per hundred eggs.

DAIRYING KEEPS BUSINESS STABLE REPORT INDICATE

MADISON, Wis.,—Dairying has had a record of 10 years to the business of dairying in Wisconsin during the past period of industrial depression, says the Wisconsin Agricultural Experiment Station. The station's report is the first of the Wisconsin Dairymen's Association, the first of the Wisconsin Dairymen's Association, the first of the Wisconsin Dairymen's Association, the first of the Wisconsin Dairymen's Association.

Answers were received from 274 dairymen, reporting a total monthly output of \$7,000,000 for milk and cream. This provides a summary of the dairymen's business, and the dairymen's business is stable. The dairymen's business is stable. The dairymen's business is stable. The dairymen's business is stable.

GOVERNOR CALLS T. B. ERADICATION MEET ON APRIL 9

Executive and Representatives of Societies Confer on Plans for Eradication

At a public tuberculosis eradication conference held at the office of Governor Blaine, representatives of the Wisconsin Farm Bureau Federation, the Wisconsin Society of Equity, the State Grange, the Wisconsin Dairymen's Association and the several county tuberculosis associations, met to discuss the plans for the eradication of bovine tuberculosis.

Mr. William Olson, secretary of the Wisconsin Farm Bureau Federation, and a member of the legislative committee of the Wisconsin Farm Bureau Federation, was elected chairman of the meeting.

After various members of the conference had expressed their views it was found that the tentative plan of a bill worked out by the state farm bureau in conference with Senator Schumacher, representatives of the several associations, colleges of agriculture and the department of agriculture, met with general approval.

Blaine Approves. Governor Blaine expressed himself in accord with the general provisions as outlined for an eradication program with the exception of the amount to be appropriated for this purpose. It being his opinion that a million dollar fund for bovine tuberculosis eradication would not be available without some change in the tax structure or the provision of a special tax for this purpose.

A committee of five, consisting of Mr. Olson of the Farm Bureau, Mr. Nelson of the Equity, Mr. Hays of the Grange, Mr. Olson of the Dairymen's Association, and Mr. Robinson of the Wisconsin Society of Equity, was appointed to go over and the bill and to draft a measure.

Next April 9. This committee met in the governor's office on April 9 and agreed on the general provisions for a bill which included the chief provisions as previously worked out by the farm bureau and the several associations. The bill provides for a fund of \$250,000 for area tests, \$100,000 for herd tests, \$150,000 for home tests, and \$100,000 for open herd tests.

Eradication Program. The chief features of the bill as drawn up by the Farm Bureau working in conjunction with the state associations, representing farmers and dairymen, and which has been passed in the present plans for bovine tuberculosis eradication. The county area test plan would be continued with the testing done free of charge. At present 15 counties have been covered and 15 counties have been covered and 15 counties have been covered.

Problem of Funds. The main point of contention between the farmers and breeders on the one side and the administration on the other seems to be chiefly one of the amount of funds to be appropriated annually for the next two years. In order to carry out a constructive program to meet the demand for area and herd tests, and make definite progress in wiping out the disease, farmers and breeders consider a million dollar appropriation as the minimum which would be consistent with the need for this work.

The administration, however, seems disposed to cut the appropriation by one-third or one-half on grounds of economy, without a change in the taxation program or the addition of a special tax.

WEST SALEM MEET ON TUESDAY BIG EVENT OF SEASON

The farmers' mass meeting which is to be held in the West Salem stock market on Tuesday, April 16, at 1 o'clock, promises to be the biggest thing of the year for the farmers and dairymen of the La Crosse district. Many big business and county, and it is expected that the most representative officials of the district will be present at a meeting of this kind.

John M. Keller, advertising expert, lawyer and successful Holstein breeder, will be present to speak on "Merchandising Wisconsin Dairy Products." He is well known as a speaker and delivers a real message at the time he delivers his address. He is well known as a speaker and delivers a real message at the time he delivers his address.

PLANS COMPLETED FOR MONROE COUNTY MILK FOR HEALTH CAMPAIGN

SPARTA, Wis.—Special.—Plans are now all completed for the "Milk for Health" drive to be put on in Monroe county during the week of April 20 to May 5. In the city of Sparta alone, about fifty people will help to make this campaign a great success. Ed Clough, executive chairman, called a meeting of all committee members, at the county agent's office, Monday evening, and all plans were gone over.

William Guerry reported that the business houses were responding splendidly in the matter of window decorations, and that some very attractive decorations would be seen.

Mrs. C. S. Phalen, chairman of the general preparations committee, consisting of Mrs. George Parlow and Mrs. E. L. Liddle, gave the general plans for the week's campaign in Sparta, and named the committee members.

Neon Lunches. Beginning Monday, April 20, big neon lunches will be served in Assembly hall, when it is expected that 500 people will be present. Mrs. Prince is chairman of this committee and her helpers are Mrs. Dave Hemstock, Mrs. Charles Hutson, Mrs. Fred Youngman, Mrs. W. A. Farrington, Mrs. W. A. Halden, Mrs. William Guerry, Mrs. L. H. Prince, Mrs. Carl Melgard, Miss Juanita Small, Mrs. John Zahra, Mrs. Oscar Hoyer, Mrs. Ed Belkey, Mrs. Charles J. Jones, Mrs. Ben Jones, Mrs. Lee Nolan, Mrs. Jones, J. C. Harrison, Kent Dickson, Mrs. L. W. Graf, Miss Dunn, Dining room committee, Messdames S. K. Dickinson, Grace Baldwin Jones, Carl Melgard, Ruby Holdrege, E. H. Jones, Serving committee, Miss Dunn in charge, with girls from the home economics department, Sparta, high school, in dairy made costumes. Committee on finance, Mrs. Hutson, Miss Small.

Charles Van der Schaaf and Will Hanchett will donate the milk for this luncheon. Mello Creme cheese put out by the Wisconsin Cheese Producers' federation at Plymouth, will be donated, and butter will be donated by the local creamery.

This dinner is not given to make money—all that is hoped is to get enough to cover expenses. The solution of the campaign is educational, along the line of milk and dairy products.

Women's Meeting. On Thursday the women are to hold a big get-together meeting at the Ball theatre. Movies and a special program are to be given, after which ice cream sandwiches will be served. The program is furnished for by Mr. Bell and Mr. Fletcher will give his services at the organ, and Dick Melcher will operate the movie machine free of charge.

The committees for this day's program are: Decorating the theatre, Mrs. Bell, Mrs. E. T. Rule, Mrs. Harry Taylor, Reception committee, Mrs. Berta Paulson, chairman, Mrs. S. D. Beebe, Mrs. E. B. Baldwin, Mrs. E. K. North, Mrs. A. Berg, Mrs. G. H. Liddle, Mrs. E. Andrews, Mrs. Wilmer Wright and Mrs. Lewis Libbey. Serving committee, ice cream sandwiches to be served, Mrs. Otto George, chairman, Mrs. Harvey Kyhl, Mrs. Harry Masters, Mrs. Harry Newman, Mrs. A. J. Walsh, Mrs. R. J. Moore. The program will include moving pictures, music, songs, speeches and a play by the school children. Miss Brittain of the university is to have charge.

A recipe contest will be one of the features of the campaign. Prizes will be given for the best dishes in which the principal ingredients are dairy products. The committee in charge of this is Mrs. J. W. Spradling, Mrs. Charles Tourville, Mrs. D. D. Cheney. The schools are taking an active part under the direction of Professor Gunderson, and the leadership of Miss Fox, Miss Dunn and Miss Berg. A poster contest, milk poems, plays and essays, and a cooking demonstration will be the chief features by the school children.

All over Monroe county, similar programs will be given in the interests of milk and dairy products, for health.

Means of maintaining farm surroundings to be of the greatest value under all year-round conditions are described.

Big Eggs and Freak Eggs in La Crosse Too

DISTRIBUTION IS ORDERED BY STATE TOBACCO POOL MEN

According to a statement received from Nelson Nephew, publicity officer of the Northern Wisconsin Tobacco Pool, the pool has ordered a second distribution to its members.

The executive board of pool has ordered a second partial distribution to be made to members of pool on crops already delivered. This distribution will be same as the advance payment at time of delivery, and the same as first distribution. The high payment on crop will not include any payment on crop in 1922, or on any farm fillets.

When this third payment has been made, practically the whole pool will be paid down on all crops delivered to the pool.

BISHOPS CALL OFF TRIP TO RUSS CHURCH MEETING. BERN. The American Methodist bishops, who were to have gone to Russia to attend the council of the Russian orthodox church, have abandoned their trip because of the postponement of the congress.

MILLS PLAN EXPANSION. GREEN BAY, Wis.—The paper mill industry here is laying extensive plans for future expansion, and is intending to institute policies which will develop the morale of workers in the industry, according to announcements of company officials.

A wage increase of 10 per cent together with a bonus for extra work, supplemented with an increase for piece work, was recently announced by the plants. In addition, a number of new employees were taken on.

OWNERS WILL FEED DAIRY BY-PRODUCTS IN LITTER CONTEST

Hog Raisers Will Realize Advantage of Feeding Skim Milk, etc., Belief of Experts

MADISON, Wis.—That Wisconsin hog owners will use dairy by-products—other skim milk, buttermilk or whey—in the state's litter contest is predicted by L. H. McKay, of the Wisconsin College of Agriculture. "Where only eight of the winning litters in Indiana had skim milk, probably few winning litters here will have as a supplement to grain anything else but a dairy by-product," says McKay. "The Wisconsin hog owner has an advantage in producing a litter that far outdistances any advantage the corn belt hog has in better 'pig weather' in early spring."

Every Wisconsin hog man should adopt the policy of keeping young pigs away from the older ones and of keeping them in clean quarters until they could get them out on good pasture. The pasture should not be one where hogs have been ranging, on account of the risk that the pigs will pick up parasites or disease from droppings. The pigs should also be kept away from the rest of the herd until about four months old. Such a policy, if adhered to, will materially improve the porker economically.

"The Indiana Litter Contest for 1922 clearly showed the value of feeding dairy by-products to hogs," McKay said. "In addition, the value of keeping young pigs away from the rest of the herd until about four months old, and of getting them on fresh pasture early has been proven. These are fundamental, the litter contest shows the value of feeding dairy by-products to hogs, and the value of keeping young pigs away from the rest of the herd until about four months old, and of getting them on fresh pasture early has been proven. These are fundamental, the litter contest shows the value of feeding dairy by-products to hogs, and the value of keeping young pigs away from the rest of the herd until about four months old, and of getting them on fresh pasture early has been proven. These are fundamental, the litter contest shows the value of feeding dairy by-products to hogs, and the value of keeping young pigs away from the rest of the herd until about four months old, and of getting them on fresh pasture early has been proven. These are fundamental, the litter contest shows the value of feeding dairy by-products to hogs, and the value of keeping young pigs away from the rest of the herd until about four months old, and of getting them on fresh pasture early has been proven. Save from \$52 to \$78 a year

You will be amazed to see how the use of "Bull" Durham will cut down the cost of your smoking.

How is it possible to give you quality at the low cost of 10 cents for 50 cigarettes?

ANSWER: The government tax alone on 50 machine-made cigarettes is 15 cents—5 CENTS MORE THAN THE COST OF 50 "BULL" DURHAM CIGARETTES TO YOU!

The average smoker saves \$1 to \$1.50 a week by "rolling his own" from "Bull"—or from \$52 to \$78 a year. This makes quite a Christmas fund—or pays for a fine trip.

EMPLOYMENT GAIN REPORTED BY U. S. FOR PAST MONTH

Figures also Show Increase in
Total Wages Paid to
Workers

WASHINGTON.—Preliminary figures on the employment situation during March in 6,453 representative establishments in forty-three manufacturing industries show an increase over the preceding month of 2.1 percent in the number of employees, a five percent increase in total wages paid and a 2.5 percent increase in the average weekly wage according to a report made public today by the bureau of labor statistics of the department of labor.

The March figures show 2,135,564 employees with a weekly payroll of \$64,538,774, compared with 2,092,285 and a weekly payroll of \$61,965,545 in February.

Increases in employment were shown in 30 of the 43 industries, the greatest increases being in the fertilizer, brick, steel shipbuilding and paper and pulp industries. Leather was among the industries showing a decrease.

Forty-two of the 43 industries showed increased payroll totals, the fertilizer industry leading with 19.6 percent. Forty showed gains in per capita wages.

Comparing last March with the same month in the year preceding, the bureau reported "enormous" increases in both employment and total wages in the automobile, car building and repairing, cotton and iron and steel industries. Of the total number of establishments reporting in the 43 industries, 57 per cent were operating on a full time basis in March, an increase of four percent over February, and 12 percent on part time.

BRYN MAWR TURNED DOWN AS WORKERS' TRAINING SCHOOL

NEW YORK.—Bryn Mawr summer school was refused endorsement as an institution for the education of workers and the application of the University of California was held in abeyance by the workers' education bureau at its annual convention Sunday night.

The bureau classed as "potential enemies" of labor the university extension courses, "labor schools" and vocational courses conducted by numerous schools, colleges and universities in all parts of the country. Bryn Mawr and the University of California were the only institutions which had applied for approval.

It was made clear that the bureau's decision was not founded on the specific text of the courses but from its idea that such courses are financed from sources hostile to labor at least in which labor has no voice.

The laboratories of Grasse, a little town in France, distill the most per-

MOVIES

"THE GO-GETTER"

There is much that is unique and thrilling about "The Go-Getter," which was shown with great success at the Rivoli Theater last evening. T. Roy Barnes, in the leading role of Bill Book, a war "nerf" working for the Rick's lumber company, has a hard time getting re-established after his discharge from the army, but the only girl in the world arrives in time to see that her father takes care of him. Naturally Bill falls in love with Mary (Sonia Owen) at first sight, and what paces he doesn't have to go through to satisfy her father that he is worthy of her aren't worth mentioning.

The original story, by Peter B. Ken, is especially suited for the screen.

"DADDY"

Little Jackie Coogan is with us again, this time in a story as different from "Oliver Twist" as that masterpiece is different from "Dick's Bad Boy." It bears the title of "Daddy," and yesterday's large audiences at the Majestic Theater gave hearty appreciation in the form of tears, laughs and loud applause.

"Daddy" is richer in acting opportunities than any previous Jackie picture.

**"STILL TIRED
when you get up?"**

Try this wonderful
Spring blood tonic

Take Hood's Sarsaparilla as a spring medicine for that tired feeling, caused by thick impure blood. Hood's makes you feel better, eat and sleep better, and makes food taste good. After the inactivity and close indoor confinement of winter it is especially hard for the sluggish system to combat disease germs.

Hood's Sarsaparilla restores to the blood those properties which help to repel germs of grippe, influenza, fevers and other ailments. It gently stimulates and refreshes weary people who feel run-down. It has given satisfaction to three generations, for a hundred years.

The tonic for that tired feeling
**HOOD'S
SARSAPARILLA**

Coogan vehicle. It was written for their boy by Mr. and Mrs. Coogan, who better than any others, know their son's precocious genius and its almost limitless versatility. Never before has this little star possessed such a chance to reveal his powers of pathetic appeal and tragic fervor. The spectators at yesterday's performance were thrilled to hushed silence when "Daddy" Jackie moved through the scene in which his guardian passes away and Jackie finds his real daddy. Dry eyes were in the minority and tears were unabashed and abundant. But they were quickly chased away by the art of this little performer, who juggles emotions and beguiles hearts.

AT THE RIVIERA

"Pawnee" is announced as the attraction at the Riviera theatre today. Both Mr. Moore and Miss Roberts have been starred in previous photoplay productions and that they appear in "Pawnee" as only featured players is an indication of the general strength of the cast and the high dependence which is placed upon the story value of the picture.

"Pawnee" is an unusually faithful picturization of a story by Frank L. Packard, widely known as a writer

of current American fiction and the author of "The Miracle Man" which, at the time of its production on the screen, set a standard for good pictures which will remain unbeaten for a long time to come.

REAL WHALE HUNT STAGED FOR FILM

The hunting and harpooning of what is claimed to be the largest humpbacked whale ever caught in waters off the Pacific coast is shown in "All the Brothers Were Valiant," the Metro screen version of Ben Ames Williams' powerful sea story, now at the Casino Theatre. The whale was landed by the crew of the "Port Saunders," northwest of Trinidad, which is the leading whaling station of the Pacific coast. It weighed fifty-seven tons.

Director Willat and his assistant, Bud Erickson, cameraman Bob Kurrie, Harry Teeple, and several members of the cast made the trip to Trinidad. Here they spent more than a week filming important episodes of the story.

"GRUMPY"

Every scenario writer strives for one big thing in every picture—suspense. Without it a picture is an anticlimax. Clara Langer has suspense in "Grumpy," William de Mille's production featuring Theo-

dore Roberts, May McAvoy and Conrad Nagel, which comes to the Rivoli Theater Wednesday, she has begun the suspense with the first scene and ends only when the final scene is shown.

The central situation of "Grumpy" is the mysterious disappearance of a diamond valued at \$500,000, which is recovered by "Grumpy," a lovable, though irascible, old character played by Mr. Roberts. The suspense starts with the opening scene, when the crooks are plotting the theft of the jewel. It builds up bigger and bigger to the climax and does not finally end until the last scene.

"WHILE JUSTICE WAITS"

One of the most pleasing photoplays on the screen is at the Strand theatre tonight. The picture "While Justice Waits," with Dustin Farnum in the leading role, is of exceptional merit and should enjoy a successful run.

Farnum is seen, at the opening of the story, as a gold prospector. On a day that he discovers the long sought-for metal he returns to his home and finds that his wife had left with another. He then devotes his life to search for her.

SEIZE RUHR WINE FOR UNPAID TAXES

COLOGNE. The French seized more than 100,000,000 marks worth of wine because the tax had not been paid, according to announcement from German quarters.

NINE ARE INJURED IN MOTOR BUS CRASH

CHICAGO, Ill. Nine persons were injured, some perhaps fatally, when a motor bus collided with a Chicago-Hammond, Indiana, interurban street car near the southern outskirts of the city.

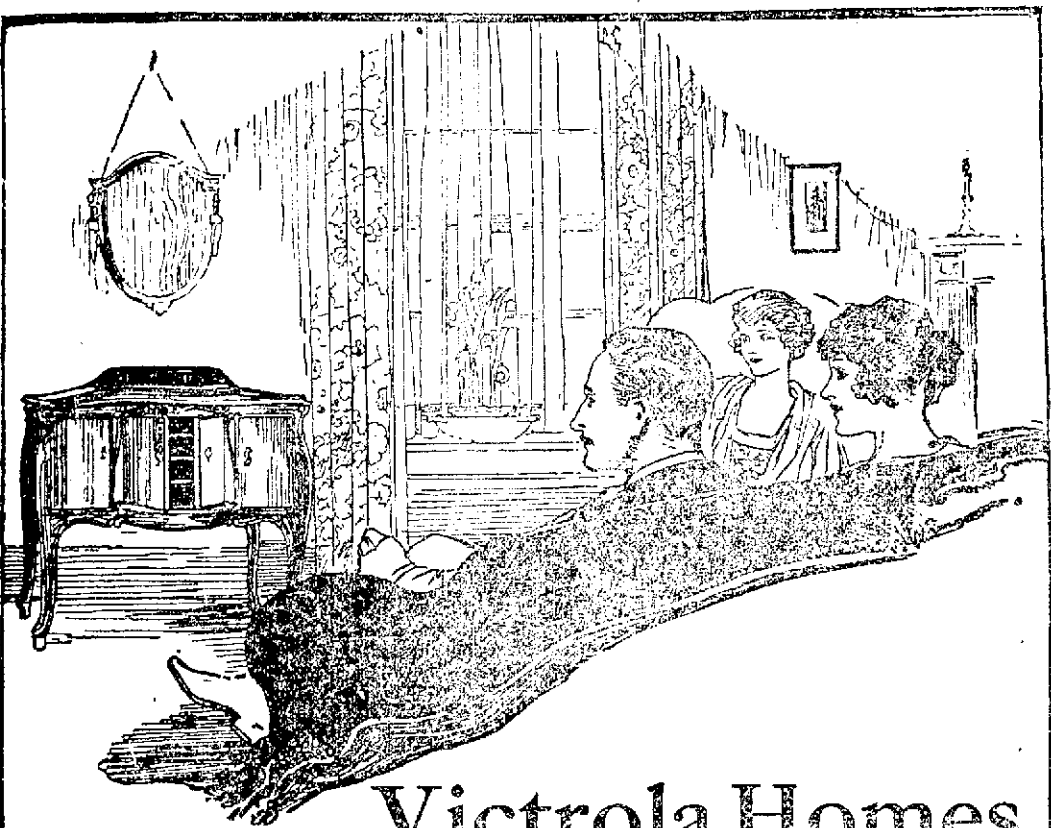

P. H. Moynihan, member of the Illinois commerce commission, summoned to investigate the accident, said he would immediately ask the commission to stop the operation of all busses not operated by companies under the commission's sanction.

CHICAGO, Ill. Three persons were killed by collisions with taxicabs, bringing this year's automobile fatalities to 168.

MILITARISM FIGHT UP IN LEGISLATURE DURING THE WEEK

Joint Committee Recommends
Military Training at Uni-
versity be Optional

DRASTIC CUT IN GUARD FUNDS
RECOMMENDED BY COMMITTEE

Governor Announces 32nd Divi-
sion Units Will be Kept Intact

MADISON, Wis.—The anti mili-
tary program will be carried to the
floor of the legislature this week,
with recommendations of committees
that the compulsory features of uni-
versity drill be abandoned and that
the national guard appropriation be
cut from \$800,000 to \$255,000.

The recommendation that it be
made optional with students whether
or not they want to drill while going
to school comes from the joint edu-
cation committee. This will be re-
ported into the house on Tuesday. The
finance committee will report favor-
ably on the reduction of the appro-
priation for the national guard late
this week.

The section bill to remove the
compulsory feature of university mili-
tary drill will pass the lower house by
a big majority.

Two reasons are advanced for the
making of drill optional. One is that
students working their way through
school can devote their time to better
purposes than drilling and the other is
that the military department fosters
the spirit of militarism.

Mrs. E. C. Hoebel, representing wo-
men's organizations, charges that
while Mrs. Robert M. La Follette was
giving an anti-military speech in Mad-
ison, earlier authorities spoke to stu-
dents telling of the "glorious service
continents" and the fact that wars
can never be abolished.

Students have lined up on both
sides of the military drill question
with members of the Social Science
club against the compulsory drill fea-
ture.

The reduction of the national guard
appropriation has the support of both
those urging general economy and a
reduction of taxes and anti-militarists.
Historic units of the Thirty-second
division will not be disturbed with the
announcement by Governor John J.
Blaine that the division will remain
intact even though the reduction pro-
gram goes into effect.

The reduction of the national guard
would mean a saving to the state of
\$540,000 with a new guard appropriation
of \$255,000 instead of \$800,000.
It would reduce the number of
men drilling in the state guard from
6,200 to 3,000.

A breach of "good faith" is being
charged by opponents to both plans.
President E. A. Larson of the universi-
ty asserts that by accepting the land
grant provisions of the Morrill act of
1862 the state pledged itself to have
compulsory drill at the state school.

Mrs. Hoebel asserts that with the
exception of California, Wisconsin is
spending more for military equip-
ment than any other state in the union.

RULES GIRL BABIES MAY BE ENTERED IN INDUSTRIAL SCHOOL

MADISON, Wis.—Girl babies can
be sent to the industrial school for
girls but boys must have reached the
age of eight years before they are
eligible to become inmates of the in-
dustrial school for boys.

This is the interpretation of the
Wisconsin law by J. E. Messer-
schmidt, assistant attorney general
following a request for legal inter-
pretation by R. E. Evers, district at-
torney of Brown county.

The Wisconsin law states that boys
between the ages of eight and 17 can
be sent to industrial school but there
is only the top limit of 18 years for
girls and there is no minimum age
provided.

ALTARS IN HOTELS
NEW YORK—Altars will be in-
stalled in the Ritz-Carlton group of ho-
tels for the use of the guests, John
F. Bowman, president of a company
controlling a chain of hotels from
coast to coast announced.

Do Your Children Grow Fast Enough?

Are They Sturdy, Healthy,
and Strong, or Pale, Weak
and Run Down?

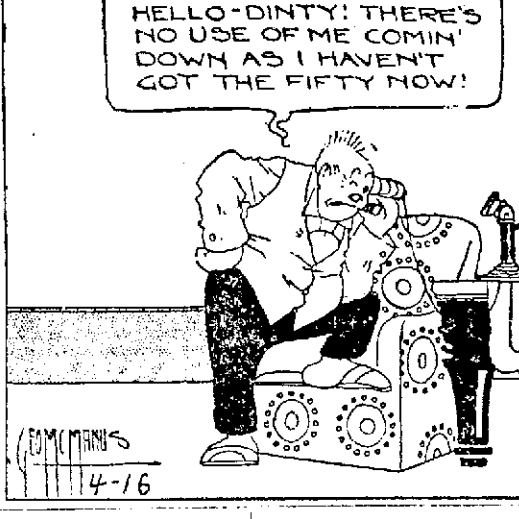

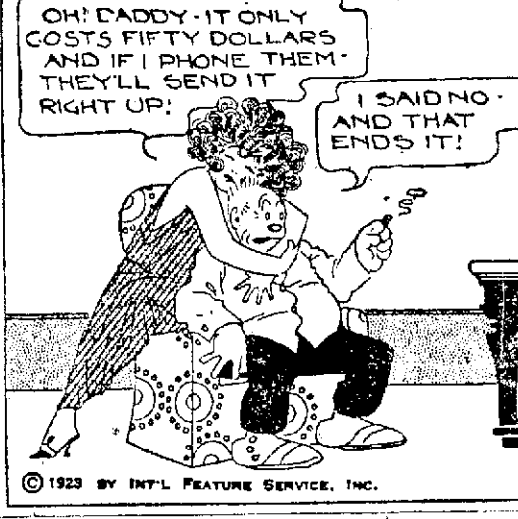

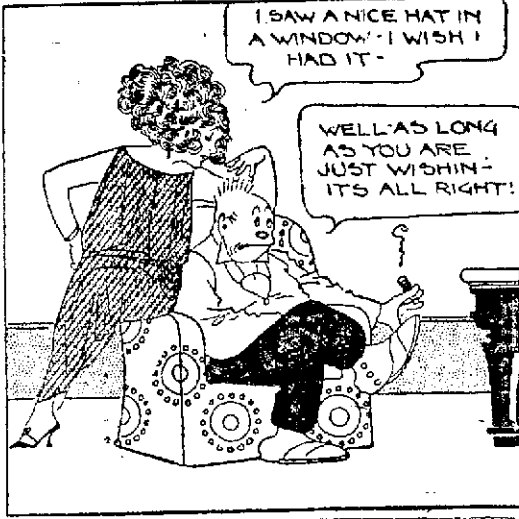

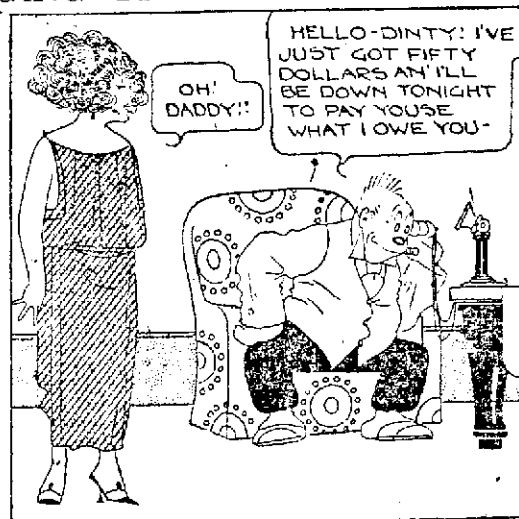

Growing children need a great deal
of food, and sometimes they will not
eat the kind of food that they need
for strength—then they become thin,
pale, and run
down.

This condition
of undernourish-
ment can be cor-
rected by taking
Foster's Food,
which does contain
just the food ele-
ments such as
children need, and that is
why so many children gain weight
regularly while they are taking this
old-fashioned family medicine.

Foster's Food is an ex-
actly balanced preparation of cod
liver oil with other food elements
such as wheat, rice, and fruit, which
can be easily taken up by those who
are weakened and run down. Your
friends and neighbors know its value.
Thousands of mothers depend upon
it to keep their children well and
strong.

BRINGING UP FATHER—

COUZENS CHARGES POOR MANAGEMENT ON PART OF ROADS

Declares Poor Condition of
Equipment is Due to
Inefficiency

WASHINGTON, — Reiterating
charges that the condition of rail-
road equipment showed incompetent
management, Senator Couzens, re-
publican of Michigan, in a statement
Monday, quoted figures to show that
modern locomotives were not effi-
ciently used and that in recent years
there had been a great increase in
bad order cars and engines.

In a previous statement, Senator
Couzens said he had asserted that the
general practice of railroad manage-
ment was to cut wages or raise rates,
instead of endeavoring to find other
means of cutting costs. The rail-
roads replied, he said, that they had
reduced expenses in 1922 over a bil-
lion dollars and that they averaged
only 1,645,237 employees in 1922 as
against 2,012,600 in 1920, although
traffic was not greatly below the
volume of 1920.

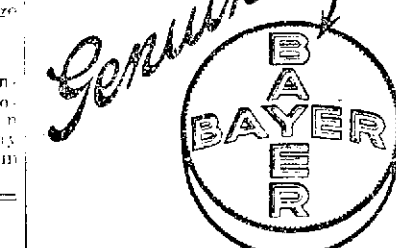

"Now, let us see," said the Michi-
gan senator, "how deceptive this
statement is. The interstate com-
merce commission's figures showed
that the 1922 traffic was approxi-
mately nineteen per cent less than
in 1920, and you will observe that the
difference in the number of employees
was approximately nineteen per
cent, so where is this flaunted effi-
ciency?"

The bureau of railway economics,
Senator Couzens said, had shown that
from 1920 to 1922 there was a con-
siderable decrease in the number of
miles traveled by each car per day,
a decrease in the tons carried by each
car, a decrease in net tons per train,
an increase in bad order cars of 89.2
per cent and an increase of bad order
locomotives of nearly five per cent.

If the railroads had cut more than
a billion dollars from annual costs
of operations, Mr. Couzens said, the
interstate commerce commission
should see that the public benefited
by reduced transportation charges.

Make THE Backyard Pay

GROWING GREENS TO USE ALL YEAR

By W. R. BEATTIE
Extension Horticulturist, United
States Department of Agriculture.
One of the ways of preventing the
human system from suffering from
digestive monotony is to provide
plenty of green or leaf vegetables in
the diet. Fresh green food not only
serves as the broom for the stomach
but supplies the human system with
the mineral elements that are so es-
sential to health.

Spinach, kale, mustard, dandelion,
sour grass and other kinds of greens
taste best in spring because they are
more tender and fresher at that time.
Collards, kale, cabbage, brussels
sprouts, kohlrabi, turnip tops and
spinach are among the important fall,
winter and early spring green
foods for the south. Cabbage, kale
and spinach are the important fall,
winter and spring green foods for
those middle sections where the cli-
mate is moderate. Fall cabbage and
spinach for late fall use, storage
cabbage and turnips for winter use
and spinach, kale and mustard for
spring and early summer use are a
good combination for the northern
states. In addition plants such as
bassella, Swiss chard and New Zea-
land spinach thrive during warm
weather.

By the use of coldframes, cover-
ing of straw or pine boughs and
other means of protection, spinach
and kale may be carried through the
winter rather far north.
Beds on which late fall, winter and
early spring kale and spinach are
grown should be raised three to six
inches above the surrounding surface
so as to drain well. They are best
located on a southern or eastern ex-
posure to get the full benefit of the
sun. A shelter of pine boughs or corn
fodder along the north and west
sides of the beds are a great pro-
tection against cold and wind. Plenty
of fertilizer is essential where fall
plantings are made for spring use.

Highly nitrogenous fertilizers
should not be applied until after the
cold weather or until active growth
of the plants begins.

A new motor spirit made from prick-
ly pear juice and certain chemicals is
now being tried out.

IMPORTANT CASES DISPOSED OF IN WOOD CO. COURT

WISCONSIN RAPIDS, Wis.—The
spring term of the Wood county cir-
cuit court ended Friday, after dis-
position of a calendar of cases of im-
portance. The conviction of John
Magnusen for first degree murder
growing out of the death of Mrs.
James R. Chapman by a Christmas
bomb, was the outstanding feature of
the term. There was an acquittal
in the case against Mrs. Lucille
Daugherty and her mother, Mrs. Doris
Eichorn, charged with the murder of
Adolph Vinn, a well known
lawyer.

Sentences imposed upon liquor law
violators were heavy. Judge R. H.
Park of Stevens Point, meting out
long jail terms for some of the of-
fenders. Due to the length of the
criminal calendar, civil cases were
carried over to the fall term.

BOSTON'S BOOTLEGGERS
WEAR METAL CORSETS
BOSTON—(A. P.)—Latest styles
in bootleggers' corsets were display-
ed by the police as a result of a
raid on a tenement house in the north
end, where a quantity of moonshine
was seized.
There are two models. Each is a

two partition the garment of two gal-
lon capacity, shaped to the body and
held in position under the coat by
shoulder straps.
One has faucets at the bottom, to
pour liquor into a glass. The other
has a rubber hose to siphon the stuff
through openings in the top.
Umberto, Prince de Piemonte, is here
to the Italian throne.

Cutting the Costs

THE FARMERS of the 10 Middle
Western States served by the Stand-
ard Oil Company (Indiana) are fast
becoming the most important consum-
ers of gasoline.

The gasoline tractor has vastly lowered
the cost of crop production and the
motor truck has come to render a sim-
ilar service by lowering the cost of
delivery. It enables the farmer to deliver
his products to nearby cities when the
market is advantageous.

To indicate how motor truck farm
haulage is increasing, it is interesting
to note that—

Farm products hauled by motor trans-
port in 1922 equalled 134,400,000 tons.

Sixty-eight hundred head of hogs—valued
at \$200,000—were delivered in one day
from 500 motor trucks to the Stock Yards
at Indianapolis, Indiana.

St. Joseph, Missouri—receives about 2500
head of cattle daily by motor truck.

Detroit, Michigan—is supplied daily with
18,570 gallons of milk by the same method
of transportation.

The figures above are just a few high spots
picked at random from an analysis of facts
published by the National Automobile
Chamber of Commerce.

The Standard Oil Company (Indiana) has
long realized that motor power meant in-
creased production of foods, greater profit
to the farmer and lower living cost to the
consumer.

Therefore, in building up its vast network
of distribution this company has kept con-
stantly in mind the public demands from
farming centers in locating its bulk storage
deposits for gasoline and lubricating oils.

In this way the Standard Oil Company
(Indiana) has been able to anticipate the
farmers needs in marketing his products
from farm to city.

On every heavily traveled highway the
Company has found a way to have its prod-
ucts on sale, so that no matter how remote
from towns he may be, the motor truck
driver always finds a dependable supply of
fuel and lubricants convenient to his need.

And yet, gasoline is low in price through-
out the 10 Middle Western states served
by the Standard Oil Company (Indiana).

Standard Oil Company
(Indiana)
910 S. Michigan Ave., Chicago, Ill.
